Examples of Twitter in the classroom

Follow the 2019 CAC model for using Twitter in the classroom

Communicating	Teacher posting course materials Students using a hashtag to communicate Students tweeting in a foreign language to practice in MFL
Assessing	Students creating tweets using specific contents learnt during class time Teacher posting surprise questions in class on Twitter Students debate and discuss on Twitter Students answer questions via direct message after class Students tweet their answers in response to questions which were worth 5% of the overall course grade
Collaborating	Students creating a joint diary/log on their timeline Students coordinating a time in a volunteer project Using Twitter to negotiate time and groups

I doubled my earnings with
